7445-KEYS-401	Override keys, #401 (set of 2)				

OPTIONAL CAMS: See 100 Series straight and offset dual-hole cams on page 80.

MOUNTING CUTOUT

The Combi-Cam Ultra™ dual-access combination cam/locker lock offers key override AND patented code discovery. Manager key overrides locks when codes are forgotten, an employee leaves, etc. Code discovery allows the code to be discovered so that the combination can be set to a new code.

A wide range of optional cams are available. See 100 Series optional straight and offset cams on page 80.
