Mounting Cutout

Included Cams

Typical Installation

*Overlay installation is not recommended for particleboard.

All below configurations can be used with straight cam or offset cam (in either the inbent or outbent position).

Function:
Right-hand door,
vertical drawer

Cam installation:
Place pin of reversible cam stop in hole #1. Place cam as pictured above. Assemble outer cam driver so that the pin from the cam is to left of the "ears." Screw in cam screw until tight.

Function:
Left-hand door,
vertical drawer

Cam installation:
Place pin of reversible cam stop in hole #2. Place cam as pictured above. Assemble outer cam driver so that the pin from the cam is to right of the "ears." Screw in cam screw until tight.
